PROJECTS

- Groceries List:
  a react app which enable users to create, read, update and delete a list of groceries they would like to get at the store.

- Contact Manager:
  a react app which enable users to add, read, update and delete a list of email contacts to the app.

- Time-Logging app:
  In this time-tracking app, a user can add, delete, and modify various timers. Each timer corresponds to a different task that the user would like to keep time for
